Race Tracks Tax Sharing Arrangement

The Province of Ontario receives a portion of every dollar wagered on horse racing in Ontario in accordance with the Race Tracks Tax Act. The amount of this tax is 7% on all types of wagers other than triactors which are taxed at 9%. In other words, 7¢ out of every dollar wagered goes to the Province with the exception of triactor where 9¢ is taken out.

In 1982 2% of the total amount wagered in 1981 or 2¢ out of every dollar was rebated back to the Industry by the Government; in the case of triactor bets 4¢ out of every dollar wagered on triactors in 1981 was rebated.

This rebate is known as the Race Tracks Tax Sharing Arrangement and is under the direction and control of the Ontario Racing Commission.

Highlights of the 1982 Program

Standardbred;

Breed Improvement Section:

Fifty percent of the 2% rebate, $2,231,000 was allotted for the funding of this section of the program which includes the Ontario Sires Stakes, Trillium Series, Breeders' Awards and a promotion and public relation section. These programs are dealt with extensively elsewhere in this report.

Overnight Purse Supplements:

After provision for equine research, 50% of the 2% rebate, $5,231,000 was declared to overnight purse supplements; as well the additional 2% triactor rebate, $1,131,000 was allocated for overnight purse supplements to the track where it had been generated.

These supplemental purse grants and their payment to the owner of competing horses in Ontario is an encouragement to investors in the Industry to continue to purchase better racing stock; as well these grants help to offset the increasing operating costs of owners.

Thoroughbred

Breed Improvement Section

In 1982 35% of the 2% rebate, $1,960,900 was allocated to the Breeders' Incentive Section of the Thoroughbred Program. These monies funded purse supplements to selected stakes races, filly stakes, selected colt stakes, Ontario Sires Stake races and breeders' awards and the Yearling Sales Stakes.

Overnight Purse Supplements

Overnight purse supplements in 1982 amounted to 65% of the 2% rebate plus the additional 2% triactor rebate which totalled $4,282,700 over the past year.

By supplementing thoroughbred purses paid to owners, the Commission and the Provincial Government are encouraging owners to continue to compete in Ontario as increased purses help offset increased racing costs and keep Ontario Thoroughbred purses competitive with other jursidictions and one step ahead of inflation.

Equine Research

The Ontario Racing Commission paid $164,300 in Equine Research grants to groups within Ontario conducting equine research. The Veterinary College at the University of Guelph received a grant of $119,300, of which $50,000 was used for research projects and $69,300 was allocated for capital expenditures on the new Equine Research Centre.

The Ontario Racing Commission approved the following equine research projects which were carried out by the Ontario Veterinary College under the direction of the Association Dean, Research and Resources, Dr. R. A. Willoughby:

Breeding and Reproductive Problems

1. Habitual abortion in mares
2. Use of hormonal and sexual stimulation in the diagnosis of cryptorchidism
3. The role of the fetus in the hormonal regulation of gestation in the horse.

Performance Problems

1. Immunity to Strongylus vulgaris
2. Assessment of cardio function in the horse showing limited exercise tolerance
3. An experimental model of antigeninduced bronchial obstruction in the horse.
4. A study of glutathione peroxidase as an indicator of selenium status in foals.
5. Relationship between immune globulins and other protective mechanisms in horses which break with salmonella following surgery.

Note: A summary of these results are available from the Commission Office or the Ontario Veterinary College in Guelph.

The remaining $45,000 in Equine Research Grant funds was allocated to the Task Group on Horse Racing Research. This Group, headed by a three-man team of Dr. H. Llewllyn, Mr. W. Struthers and Mr. J. Radcliffe commenced a study into the physiology of the race horse. The Group conducted research in 1982 into the state of the art of Equine Research as it relates to exercise physiology and have prepared a number of papers relating to their findings.
